Column Water Butt

The premium quality, Column Tank offers an attractive design with either 300 or 500 litre storage capacity.

This tank can be filled using a 3P Filter Collector Universal to collect and clean rainwater, which can be pumped from the lower outlet using the 3P Pump to Tank connector kit. Features a lid for easy access to the inside of the tank (300 Litres version lid differs from one pictured).

The 3P Column Tank made from high quality PE features two 3/4" BSP brass threaded outlets. Charcoal and Grey Column Water Butts include a chrome tap while the green variant includes a brass tap.

Capacity: 300 L (66 gal)
Height: 150 cm
Diameter: 55 cm
Weight: 14 kg

Capacity: 500 L (110 gal)
Height: 184 cm
Diameter: 65 cm
